# INSTALACIÓN Y CONFIGURACIÓN DE SERVIDOR

## INSTALACIÓN DE FILEZILLA

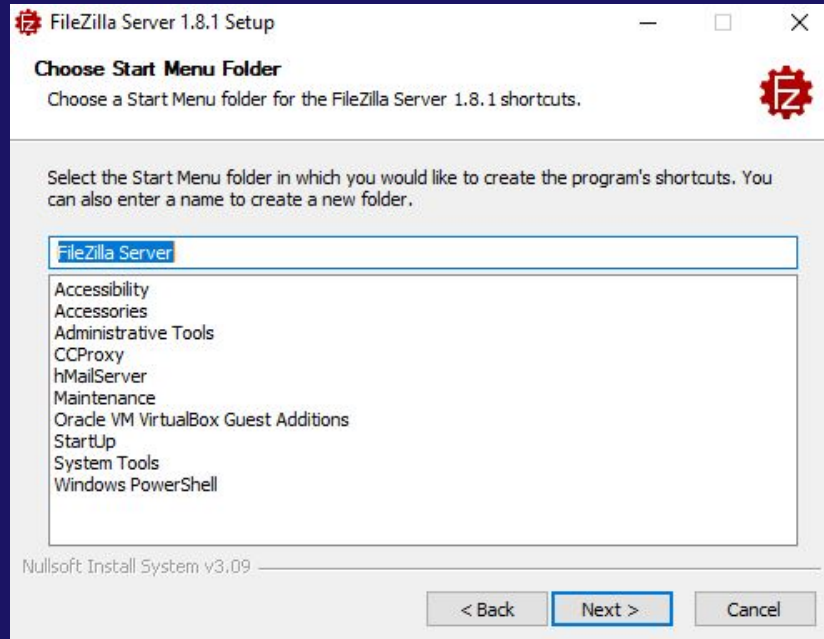

1. En primer lugar, descargamos el FileZilla server.

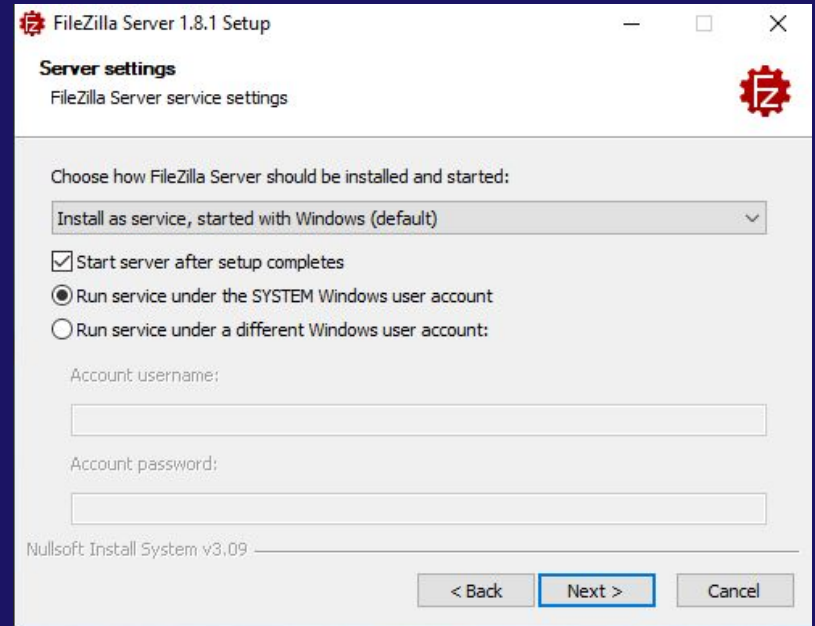

2. Elegimos la instalación completa.

3. Lo dejamos predeterminado.

4. Indicamos que lo instale como un servicio de windows server.

5. Ponemos la contraseña de administrador y dejamos el puerto por defecto

The image shows a Windows-style installation window titled "FileZilla Server 1.8.1 Setup". The window has a standard title bar with minimize, maximize, and close buttons. Below the title bar, the text "Server settings" is displayed in bold, followed by "FileZilla Server administration settings" in a smaller font. A red gear icon with a white 'F' is located in the top right corner of the settings area. The main content area is light gray and contains three sections: 1. "Choose the listening port for the administration interface (1025-65535):" with a text box containing "14148". 2. "Choose the administration password:" with a text box containing ten black dots. 3. "Retype the chosen password:" with a text box containing ten black dots. At the bottom of the window, there is a status bar that reads "Nullsoft Install System v3.09". Below the status bar are three buttons: "< Back", "Next >" (which is highlighted with a blue border), and "Cancel".

FileZilla Server 1.8.1 Setup

**Server settings**  
FileZilla Server administration settings

Choose the listening port for the administration interface (1025-65535):

14148

Choose the administration password:

●●●●●●●●●●

Retype the chosen password:

●●●●●●●●●●

Nullsoft Install System v3.09

< Back   Next >   Cancel

Una vez instalado el FileZilla, tenemos que configurar la estructura de usuarios, carpetas y permisos. Todo esto está explicado y documentado en el apartado [CREACIÓN DE USUARIOS Y GESTIÓN DE PERMISOS Y POLÍTICAS Y DIRECTIVAS](#)

**FIN DEL MANUAL**
